STAPLE FOOD FOR POULTRY

Grain Will Be Used as Long as Fowls Are Kept on Farms—Hens Must Have Certain Varieties.

Grain is the staple food for poultry. It will be used for that purpose as long as fowls are kept on farms; but hens cannot give good results on grain alone. It is beneficial to them, and will be at all times relished, but the demands of the hen are such as to call for a variety. In the shells of eggs, as well as their composition, are several forms of mineral matter and nitrogen, which can only be partially obtained from grain.

Even though grains carry in composition for a long time, hens will begin to refuse it, as they may be over-supplied from other sources. For this reason they will accept a change of food which is of itself evidence that the best results for their hens can only be obtained from a variety of food. Corn and wheat may be used as food with advantage, but must be given as a portion of the ration only, and not made exclusive articles of diet.

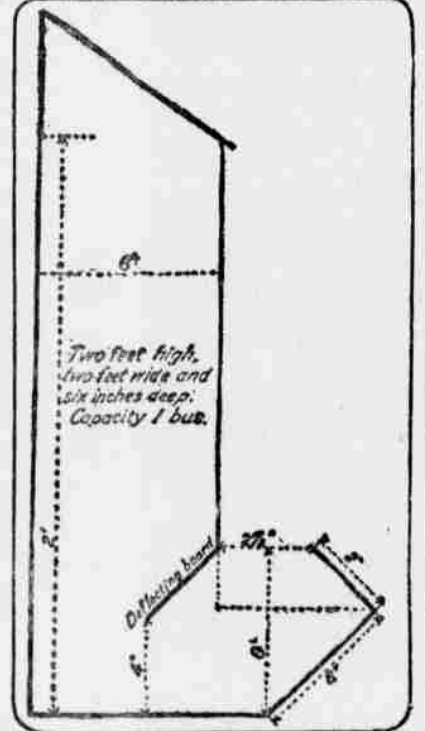

In grain the principle articles or elements required to keep a hen in good laying condition are found, and it is for this reason that your hens may continue to lay for some time if only given grain, provided they find the other elements necessary while running around the farm. But the trouble with this manner of feeding is that it is too uncertain.

You are taking the chance of the hen finding the other elements required. No hen has ever laid an egg unless she has taken into her system elements from the vegetable, animal and mineral kingdoms. Grain can represent the vegetable kingdom, bugs or insects, the animal, and grit or oyster shell, the mineral. It is absolutely necessary that every hen partake of these elements before she can produce a single egg.

HOPPER FOR LITTLE CHICKS

Device Illustrated May Be Enlarged and Used for Older Stock—Construction Is Simple.

The hopper illustrated below will hold one bushel of feed, and is intended for growing chicks, though by enlarging the size it may be used for older stock.

Dry Mash Hopper.

er stock. It is well, however, to keep the dimensions of the feed opening the same, this opening being specially designed to prevent waste. The ends are made of one-inch material, and the rest of the hopper of half-inch stuff. Any lumber that is at hand may be used, and the construction is so simple that anyone able to use a hammer and saw can knock one together in a very short time.

FATTEN CHICKENS FOR TABLE

Fowls Should Be Placed in Portable Pen Without Crowding—Feed Sparingly for Three Days.

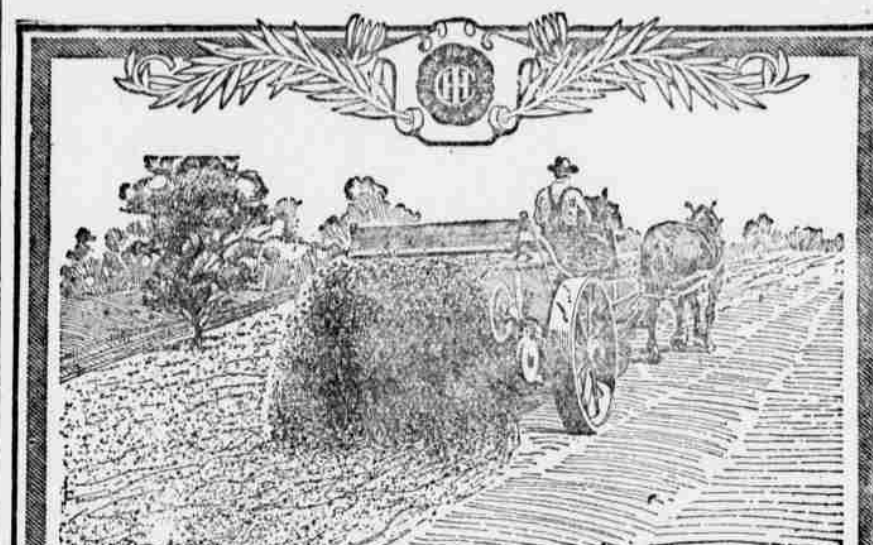

Prepare a portable pen by nailing strips of lumber together to form a frame, and then tacking on pieces horizontally, so as to make an enclosure, leaving sufficient opening to give light and ventilation. The pen, writes a Virginia man in the Epitomist, should be floored, and sufficient outlet left for the droppings. A roof should be made, and without leaks. The whole should be made large enough for ample accommodations, depending upon the number of birds to be kept in. Only fowls that are peaceable should be kept together. Do not overfeed at first; after two or three days give all that they will eat up clean, and be sure to give water after they have finished eating. Give buttermilk occasionally, as most fowls like it. Sprinkle sand, gravel or charcoal in the pen occasionally. In from one to two weeks fowls should be in good condition for eating. If there is nothing wrong with them.

Leading Doctors Advised Dr. Kennedy's Favorite Remedy.

Nothing Helped Patient So Much—Kept System in Good Condition During Dangerous Illness.

It is seldom that physicians endorse a ready prepared medicine, for they have their own remedies and treatment to prescribe, and we don't blame the doctors in the least. Often, however, they have to admit that Dr. Kennedy's Favorite Remedy will do more for the patient than their own prescriptions. Only a year or so ago such a case happened in Kingston, N. Y., where one of the best known women in that historic city was attacked with pneumonia, at the age of 68 years. It was an alarming case. She was attended by three of the leading physicians in Kingston and by a renowned specialist from New York City. She slowly recovered from the pneumonia, only to be attacked by severe nervousness, accompanied by distressing and complicated heart trouble. She could not sleep and her entire system became even more debilitated and weakened. It was absolutely necessary to keep her bowels in regular order and at the same time avoid any drugs of too drastic a nature. It was a delicate situation. Now the lady had previously used Dr. Kennedy's Favorite Remedy and she and her family knew of its value. The doctors finally decided to allow her to use it and they found that the results were more satisfactory than from any other treatment they had tried. As they were broad minded and honest men, they advised her to continue its use, in connection with their own general treatment. Aided, therefore, by Favorite Remedy, the good lady steadily improved and she is now in most excellent health.

We will give the names of all parties upon request. We cite this case as further proof that Dr. Kennedy's Favorite Remedy is a highly valuable preparation, as safe as it is efficient, for the most delicate person. For nearly 40 years it has enjoyed a steady success in the treatment of Liver, Kidney and Blood disorders. Send today for a free sample bottle and valuable medical booklet. Dr. David Kennedy Co., Rondout, N. Y. Large bottles at all druggists.

Five Solid Reasons

IVE solid reasons why each farm needs a manure spreader are these, in the words of a farmer who has devoted much time to correct soil-feeding. 1. It saves disagreeable and hard work. 2. It pulverizes and mixes the manure mass. 3. It distributes manure evenly over the field, insuring a good, even stand of grain. 4. It prevents loss of nitrogen through fermentation or leaching in the pile when manure is hauled directly from the stable. 5. Indirectly, the ease with which it can be handled encourages the owner to care for the manure and distribute it on the fields carefully instead of wasting it.

I H C Manure Spreaders

will work uncomplainingly for years making profits for the owners. You will find them all styles and sizes, high and low, endless apron or reverse.

I H C manure spreaders are exceedingly durable, strong, correctly built to stand all conditions and all strains they may meet. Each feature has its purpose. Up hill or down or cutting corners, they spread all kinds of manure evenly, in a light or heavy coat at the will of the driver. The beater drive is strong and simple, beater teeth are square and chisel pointed to pulverize the manure, and the large diameter of the beater prevents winding. The rear axle, carrying a large percentage of the load, insures ample tractive power. But see all these things yourself at your local dealer's. Find your choice in the I H C line. The dealer has catalogues for you, or, write the

Desirable Floor Finish.

When the house is having its brightening-up, the floors need their share of attention. A floor that is varnished and rubbed is satisfactory both in wear and appearance. It is durable and clean, and if wear shows in the most used spots, a little more varnish can easily be added. The shiny finish of unvarnished floors is not desirable, but the rubbing down is easily done. Pulverized pumice stone with crude oil or water is used, applied with a bit of heavy felt or burlap. Only a little rubbing is necessary to destroy the high gloss; but more rubbing will produce a rich, smooth, velvety finish.

Chicken Truffles.

Chop the raw meat of a four-pound chicken very fine and add four well-beaten eggs, one at a time, with a third of a pint thick cream and salt and pepper to taste. Cook in buttered timbale molds, garnished with truffles and set in a pan of hot water in a slow oven. Cover with buttered paper. Bake 30 minutes. Serve with this sauce: Two tablespoons each

Never can tell when you'll mash a finger or suffer a cut, bruise, burn or scald. Be prepared. Thousands rely on Dr. Thomas' Electric Oil. Your druggist sells it. 25c and 50c.

Farm Diplomat.

"Do you want a job as a farmhand?" "No," replied Plodding Pete. "You have been kind to me in the past, and I think too much of you to make you an object of jealous hatred among all your neighbors."

"Had dyspepsia or indigestion for years. No appetite, and what I did eat distressed me terribly. Hardcock Blood Bitters reached the cure."—J. H. Walker, Sunbury, Ohio.

Hongkong's Tobacco Trade.

The import tobacco trade into Hongkong consists almost entirely of second-rate to waste tobacco, chiefly of filler from the Philippines which has been discarded for the fine trade by the great Philippine factories, and of wrapper from Sumatra discarded by the high-grade trade, and various tobaccos from Java, India and the Malay states which are not suitable for the fine trade anywhere.

JOHNSON

J. E. Foster is moving to Underhill. J. W. Barton, who is ill, is improving. Mr. and Mrs. E. R. Welch of Hardwick are in town.

Earle Holmes was home from U. V. M. over Sunday.

Rep. and Mrs. Jose were in Burlington last Wednesday.

Rev. E. G. French went to Irasburg to preach last Sunday.

Taylor Mead of Morrisville was in town the first of the week.

Miss Stella Clerkin of Burlington is a guest at Frank Miller's.

A son was born to Mr. and Mrs. Chauncey McQueen Thursday, Oct. 2nd.

Mrs. Alice Mead of St. Johnsbury is visiting Mrs. Bert Gauvin for a few days.

Mrs. Bell, widow of the late Gov. Bell, was a guest of Mr. and Mrs. C. H. Stearns last week.

Alfred Fay has gone to stay a few weeks with his sister, Mrs. Julia Fields, at Keene, N. H.

D. Barrows, wife and daughter and Mr. and Mrs. W. E. Tracy were in Burlington last Thursday.

Rev. F. W. Hazen with the Boy Scouts and several other young people climbed Mount Sterling Monday to cut a trail to the White Rocks on the other side.

Howard Sargent has been called home from Taunton Mass., by the serious illness of his father, Fred Sargent, who is suffering from cancer of the head.

Those from here on the LaClair case at Newport town vs. LaClair went to Newport—some eleven in all—and the case was adjourned to Tuesday Oct. 14.

Mr. Blair, who has been living in the Chas. Demeritt house on Gulf street, has moved into the basement of W. H. Nye's store and opened a restaurant.

Mrs. T. A. Waterman, who is on from the west, wishes to dispose of a lot of household goods and finds no better way than an auction. Therefore on Friday afternoon of this week she will sell at auction at E. E. Wells' place a general assortment of household goods. See bills and take advantage of this opportunity to get something useful at a low price.

The Johnson Library

The following is from the September Ladies' Home Journal:—

Occasionally we have unmistakable proof that it is not alone size and location, nor any other of the many blessings which belong to the city club, which accomplish results. On the other hand we find that oftentimes it is pure grit and courage that make opportunity and possibility. Note the work that has been done by a little Green Mountain club in Johnson Vermont.

In this little village of not more than six hundred souls, the population of the entire township being about sixteen hundred some twenty of the ladies organized a Woman's Club fifteen years ago. Its purpose was for literary benefit and to promote sociability, and also to work for the town library, there being one of a few hundred books, kept in a private house.

Today the books which now number seventeen hundred eighty-five, are housed in a fine brick building, the contract for which was let at five thousand dollars, and it is paid to within the last hundred dollars. A liberal townsman gave the fine location, and a few solicited subscriptions helped out, but the club for the most part earned the money.

There have been annual rummage sales, lawn parties, amateur theatricals, concerts by home talent, food sales, fairs, suppers served for lodges etc., money all honestly earned.

In addition the club has taken all the care of the library and contributed many of the books the town only voting a hundred dollars annually toward its maintenance. The club has not only raised the literary tone of the place, but it has also elevated the social life in many ways.

Note:—The town has never voted over fifty dollars until the last two years when they voted one hundred dollars.

BROWN'S RELIEF
UNEQUALED
For
Coughs, Colds, Colic, Sprains, Scalds, Cuts, Burns, Sore Throat, Chills, or Sore Feet.

STOWE

Miss Ruth Dunbar is visiting her sister Mrs. Charles McCuen, in Burlington.

Mr. and Mrs. Arthur Seaver are visiting their son and daughter, Ora and Miss Kate, in Boston.

Miss Laura Smith and Miss Mabel Carpenter of Orange are visiting their cousin, Mrs. Angus Gale.

Miss Maude Raymond of Keefe, Mass., is visiting her mother, Mrs. Alice A. Raymond, and other friends in Stowe.

Mrs. Abbie Cressett of Duxbury, who has been with her nephew, F. P. Billings, was taken to the Mary Fletcher hospital for treatment Tuesday. She was accompanied by Mrs. Billings and Mrs. G. A. Douglass.

Mr. and Mrs. A. F. Garrow, who passed the week with Mrs. Garrow's parents, Mr. and Mrs. W. A. Aldrich, returned Saturday to Essex. About 35 neighbors and friends gave Mr. and Mrs. Garrow a reception Wednesday evening.

Grange Fair and School Exhibit

The annual fair of Mansfield Mountain Grange was held at the Akeley Memorial Building Saturday and in connection with it the first annual farm products and household arts contest of the pupils of the schools in Stowe under Superintendent C. D. Howe proved a successful occasion. The banquet hall where the exhibits were shown was tastefully decorated. The grange exhibits included vegetables, corn, apples and other farm produce, sewing and fancy work. The children's exhibits included 25 pecks of potatoes, eight traces of corn, three exhibits of squashes, six of beets, five of carrots, four of cabbages, six of turnips, two of beans, one of pumpkins, 22 cakes, five Johnny cakes, 10 loaves of bread, five loaves of brown bread, five exhibits of cookies and 15 of doughnuts. Prizes were won as follows:—

Field corn, 1st, Max Gibbs; 2nd, Kenneth Gibbs; 3rd, Floyd Sears; 4th, Milo Winsley; sweet corn, 1st, Ralph Harlow; pop corn, 1st, Harold Smith; 2nd, Douglas Barrows; potatoes, 1st, Floyd Sears; 2nd, Amos and Wallace Strong; 3rd, Roy Latuiche; 4th, Harold Spaulding; special prize, Andrew Mansfield; squashes, 1st, Adelbert Magoon; 2nd, Theodore Magoon; 3rd, Harold Page; cabbage, 1st, Harold Smith; 2nd, Edmund Peterson; 3rd, Herbert Ayers; 4th, Guy L. Holden; turnips, 1st, Harold Page; 2nd, Roy Latuiche; 3rd, Dan Burt; 4th, Josie Blake; beets, 1st, Herbert Ayers; 2nd, Guy L. Holden; 3rd, Harold Smith; 4th, Josie Blake; cucumbers, 1st, Lester Oakes; 2nd, Rex Morse; 3rd, Ralph Burt; 4th, Watson Tucker; carrots, 1st, Harold Smith; 2nd, Herbert Ayers; 3rd, Richard Straw; 4th, John Poor; tomatoes (canned) Mary Chapin; beans, 1st, Harold Page; 2nd, Paul Magoon; special celery, Orlo Jenney; Richard Chase; pumpkin, Edward Puffin; special prize citron, Harry Tucker; essays, Florence Shackett, Mildred Patterson, George Ayers, Howard Campbell; brown bread, 1st, Madeline Boardman; 2nd, Alice Magoon; 3rd, Lucy Wilkins; 4th, Helen Peterson; Johnny cake, 1st, Bertha Shepard; 2nd, Flora Clark; 3rd, Agnes Town; 4th, Rachel Brown; cookies, 1st, Dorine Robinson; 2nd, Margaret Shaw; 3rd, Mabel McAllister; 4th, Emma Fuller; biscuits, Hortense Shackett; doughnuts, 1st, Flora Clark; 2nd, Mildred Shaw; 3rd, Marian Camley; 4th, Mary Chapin; bread, 1st, Lois Riley; 2nd, Dorothy Lang; 3rd, Ruby Shaw; 4th, Rebecca Morgan; cake, 1st, Ethel McGibbon; 2nd, Doris Laberde; 3rd, Gladys Smith; 4th, Goldie Shonio; ginger cake, special, Mabel Douglass; layer cake, Beatrice Gale; plain sewing, 1st, Vivian Campbell; 2nd, Alice Boozan; 3rd, Esther Chapin; 4th, Hortense Shackett; fancy work, 1st, Dorothy Lang; 2nd, Ruby Shaw; 3rd, Doris Laberde; 4th, Dorothy Adams; crocheting, 1st, Hilda Foster; 2nd, Lucy Latuiche.

A picnic dinner was served by the ladies of the grange to a large number of pupils, teachers and friends, and members of the Grange. A program carried out in the auditorium in charge of the lecturer, Mrs. J. F. Campbell, included selections by Agnes Town, Vivian Campbell, Goldie Shonio, R. S. Warren and Mrs. Flora Blodgett; readings by Mrs. C. F. Eddy and Mrs. A. J. Magoon; addresses by Principal R. G. Reynolds and Superintendent C. D. Howe and awarding of prizes by Mr. Howe.

Burial Grounds of Lamoille County

Inscriptions from yard at Hyde Park Plains, Hyde Park, Vt.
Copied and arranged by J. E. Bowman
Concluded from issue of July 30, 1913

PART IV

Died:

Erastus Edgerton Sept. 9, 1896, 80 yrs.; Mary, wife of Erastus Edgerton, March 22, 1882, 61 yrs.; infant daughter of Erastus and Mary Edgerton Aug. 17, 1852. (Monument.)

Philora L., daughter of E. F. and T. S. Edgerton, Dec. 15, 1860, 19 yrs. 7 mos. E. F. Edgerton 1891 (Born 1819); Thankful S., his wife, 1899. (Born 1818.) (Monument.)

Eliza Ann, dau. of Joseph and Theresa Shepherd, Nov. 14, 1857, 12 yrs. 9 mos. 14 dys.

Conclusion of inscriptions from yard at Hyde Park Plains. The next inscriptions printed will be those from the Wheeler yard near Morrisville. They will appear in three parts.

DECIDE YOURSELF

The Opportunity Is Here, Backed by Morrisville Testimony

Don't take our word for it.

Don't depend on a stranger's statement.

Read Morrisville endorsement.

Read the statements of Morrisville citizens.

And decide for yourself.

Here is one case of it:

P. St. Rock, Main St., Morrisville, Vt., says: "I suffered from lameness and pain in my back and my kidneys did not do their work as they should. I was in misery when I stooped or lifted. I also noticed that the kidney secretions were unnatural. Doan's Kidney Pills brought me prompt relief, strengthening my back and improving my condition in every way."

For sale by all dealers. Price 50 cents, Foster-Milburn Co., Buffalo, New York, sole agents for the United States.

Remember the name—Doan's—and take no other.

If your business isn't what it ought to be, go see the Printer.
